WEB & MOBILE DEVELOPER

Web and Mobile Development is one of the skills that I specialize in, because in this digital era, rapid technological developments, especially websites and mobile applications, are the most sought after at this time.

MY PROTFOLIO

3. WEBSITE BEM VOKASI UI

The screenshot shows the homepage of the BEM Vokasi UI website. At the top, there is a navigation bar with links for Home, Tentang Kami, Profil, Artikel, Kanal Aspirasi, and Hubungi Kami. The main content area features a large, colorful illustration of a traditional Indonesian building (likely a pagoda or temple) situated on clouds, with a background of yellow, orange, and green smoke or mist. To the right, there is a large, stylized text message: "SELAMAT DATANG" at the top, followed by "BEM VOKASI UI" in large blue letters, and "2021" below it. Below this, the text "Serentak Berdampak" is displayed. A red button labeled "LIHAT MENU" is located at the bottom of this text block. The overall design is modern and incorporates traditional elements.

MY PROTFOLIO

4. WEBSITE SMP KANISIUS PATI

The screenshot shows the homepage of the SMP Kanisius Pati website. At the top, there is a circular profile picture of a man with glasses and a suit. The main header features the school's name "SMP KANISIUS PATI" in large blue letters, with the tagline "From passion to action" below it. A "TENTANG KAMI" button is visible. The central image is a photograph of the school building. Below the image, the principal's name "Br. Edesius, MTB" is displayed, along with a short bio and the date "Pati, 9 Juli 2021". The principal is shown in a white shirt and Santa hat, standing in front of a white background with school-related icons.
